

As a participant of the "do not call" list, I oppose the Consumer Bankers Assoc attempt to weaken the Indiana "Do Not Call" Law. Allowing the "Established Business Relationship" exemption will absolutely undo everything that the law has done. This group is one of the most blatant abusers of telemarketing and I have chosen not to be contacted by them or any other solicitors. Please do not allow this change in the law and keep the best interest of the public as your number one priority. Thank you.
